

## **REMARKS**

Reconsideration and further examination of the subject patent application in light of the present Amendment and Remarks is respectfully requested.

### **Remarks Regarding The Specification**

Applicant notes the Examiner's comments regarding the request for a clean copy of the specification and the Examiner's objections under § 112. Applicant also notes the Examiner's comments that although the figures are described, the specification generally provides no reference to specific drawings and thus, the specification and drawings appear to be unconnected.

Applicant's new attorney is having some difficulty obtaining a word-processed version of the original specification. Accordingly, applicant plans to respond to such objections after applicant has received confirmation that the Petition for Revival has been granted, most likely by submitting a continuation-in-part application to address such objections.

### **Introductory Remarks Regarding The Claims**

Claims 2-15 are currently pending in the application, claim 1 has been previously canceled, and claims 2-14 stand rejected.

### **Rejection Under 35 U.S.C. §112**

Claims 1 stands rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, as set forth on pages 3-4 of the Office Action. Applicant respectfully points out that claim 1 had been previously cancelled by preliminary amendment, as reflected by check boxes 4 and 6 of the Office Action Summary sheet.

### **Rejection Under 35 U.S.C. §102**

Claims 2-3 stand rejected under 35 U.S.C. §102(b) as being anticipated by Huilgol, as set forth on pages 4-5 of the Office Action. Further, claims 14-15 stand rejected under 35 U.S.C. §102(e) as being anticipated by Moscovitch, as set forth on pages 6-7 of the Office Action. In view of the claims as presently amended, applicant respectfully traverses this rejection.

Neither Huilgol nor Moscivitch include the hollow compartment to permit positioning, alignment and storage of said display screen as recited in claim 1 and 14, respectively. Such an element is completely missing in the cited references. Because at least one significant element of applicant's claimed invention is missing from the device in Huilgol and Moscovitch, respectively, these references cannot individually anticipate applicant's claimed invention.

#### Rejection Under 35 U.S.C. §103

Claims 4-13 stand rejected under 35 U.S.C. §103 as being unpatentable over various combinations to Huilgol, Winkler, Janik, and Karidis. In view of the claims as presently amended, applicant respectfully traverses this rejection. Applicant reasserts the above argument in traversing the Examiner's rejection regarding various combinations of Huilgol, Winkler, Janik, and Karidis. In the present case, the references do not teach or suggest applicant's claimed apparatus.

#### Closing Remarks

As mentioned above, applicant plans to file a continuation-in-part application to improve the readability of the specification and claims, and also plans to provide a more comprehensive argument to overcome the Examiner's rejection of the claims based on prior art. Applicant awaits granting of the attached Petition for Revival before embarking on the above-mentioned filings.

Should the Examiner be of the opinion that a telephone conference would expedite prosecution of the subject application, the Examiner is respectfully requested to call the undersigned

at the below-listed number.

The Commissioner is hereby authorized to charge any additional fee which may be required for this application under 37 C.F.R. §§ 1.16-1.18, including but not limited to the issue fee, or credit any overpayment, to Deposit Account No. 23-0920. Should no proper amount be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal, or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 23-0920.

Respectfully submitted,
